JUN - JUL 2018

PRESIDENT'S MESSAGE:

Greetings to All,
 It was great to see the members at RPEA Chapter 095 who braved the Sunshine to join us in Carson on April 11, 2018.
 We had a lively discussion and were happy to lunch and socialize together. Everyone is always glad that we live in Nevada now, even though it means dealing with snowy days in April.
 I received an email from Headquarters in Sacramento about the building fund. I would like you (the members) to okay a donation of \$200.00 from our club's funds to the building fund. Just email me a yes or no by

the end of June 2018. If there are more Yes responses, I will authorize the donation.
 I will not be able to attend the RPEA General Assembly in September, hopefully our secretary/ treasurer will be able to represent 095.
 Looking forward to seeing our loyal attendees on October 1, 2018 in Reno.
 We will discuss a summary of the General Assembly and the Statewide ballot initiatives.
 Enjoy the rest of Spring and Summer!!
 Nancy Ann Jorgensen
 President, RPEA Chapter 095

I'm a Seen-ager (Senior Teenager)

I just discovered my age group! I am a Seenager. (Senior teenager)
 I have everything that I wanted as a teenager, only 50-60 years later.
 I don't have to go to school or work
 I get an allowance every month.
 I have my own pad.
 I don't have a curfew.
 I have a driver's license and my own car.
 I have ID that gets me into bars and the wine store. I like the wine store best.
 The people I hang around with are not scared of getting pregnant, they aren't scared of anything, they have been blessed to live this long, why be scared?

And I don't have acne.
 Life is Good! Also, you will feel much more intelligent after reading this, if you are a Seen-ager.
 Brains of older people are slow because they know so much.
 People do not decline mentally with age, it just takes them longer to recall facts because they have more information in their brains.
 Scientists believe this also makes you hard of hearing as it puts pressure on your inner ear.
 Also, older people often go to another room to get something and when they get there, they stand there wondering what they came for.
 It is NOT a memory problem, it is nature's way of making older people do more exercise.
 SO THERE!!
